## Floor Plans

### Hypothetical Full Floor

- The second floor features 20-foot ceilings with the ability to fabricate creative mezzanine opportunities
- The smaller floor plates are divisible to 1,886 square feet and also work well for innovation incubators
- Creative and open spaces offer users ultimate flexibility between 1,886 and 40,000 square feet
- The side core design allows for large open collaborative space with abundant light and unique outdoor circulation space
